

Introducing PayCargo API

Your business needs to send and receive payments. Integrate with our seamless API and use PayCargo to facilitate all your payment requests.

PayCargo is the most efficient electronic payment method in the freight and logistics business.

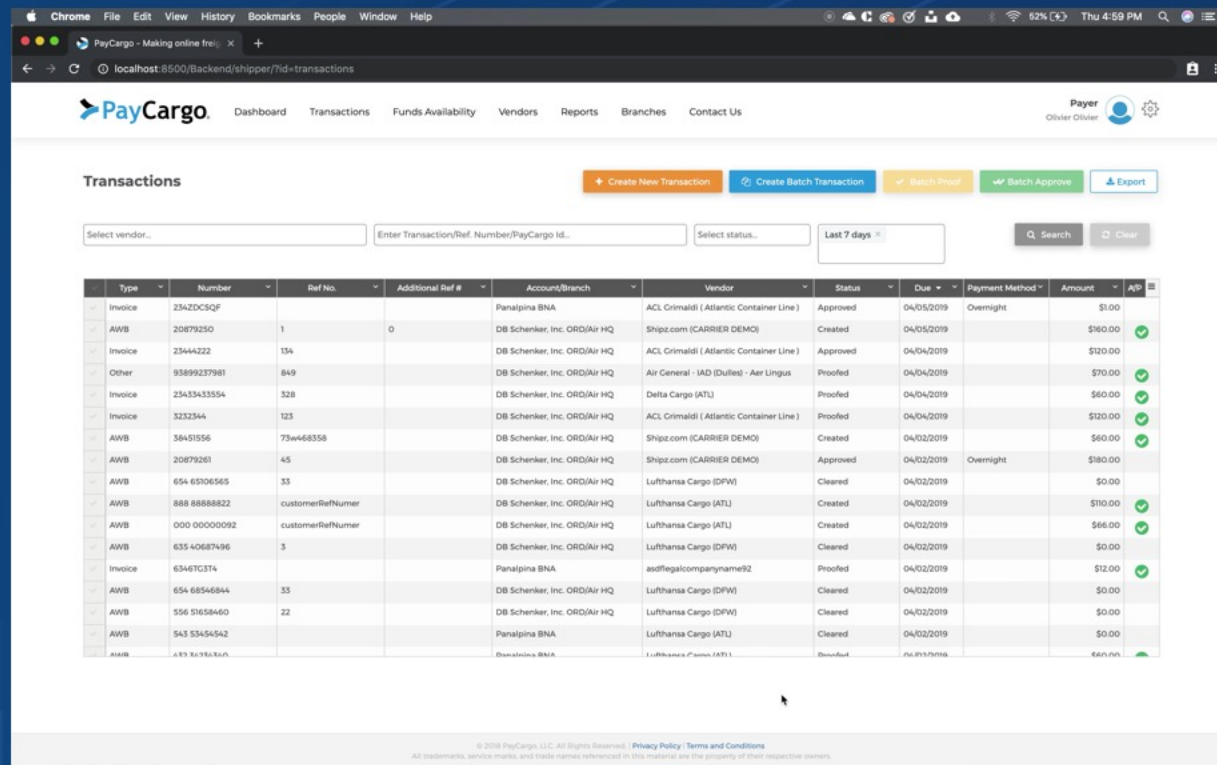

Create, Edit and Process Transactions Easily

Create a transaction using PayCargo as a payment option on a third-party website. Add transaction lines for multiple payments in a single transaction.

Process the transaction using PayCargo's API and have your cargo released within the hour!

[VIEW DOCUMENTATION](#)

The screenshot displays the PayCargo web application interface. At the top, there's a navigation bar with links for Dashboard, Transactions, Funds Availability, Vendors, Reports, Branches, and Contact Us. Below this, a 'Transactions' section features buttons for 'Create New Transaction', 'Create Batch Transaction', 'Batch Proof', 'Batch Approve', and 'Export'. A search bar is also present. The main content area shows a table of transactions with columns for Type, Number, Ref No., Additional Ref #, Account/Branch, Vendor, Status, Due, Payment Method, Amount, and APB. The table lists various transactions, including invoices and AWB (Air Waybill) entries, with their respective statuses and amounts.

Type	Number	Ref No.	Additional Ref #	Account/Branch	Vendor	Status	Due	Payment Method	Amount	APB
Invoice	234ZDC3QF			Penalpinia BNA	ACL Grimaldi (Atlantic Container Line)	Approved	04/05/2019	Overnight	\$1.00

Be Secure with End-to-End Encryption

At PayCargo, your security is our highest priority. Here are some of the measures we've taken to ensure the safety of your personal information and funds:

- Imperva/Incapsula web security
- SHA512 password encryption
- JWT tokenization

Streamline Transaction Reconciliation

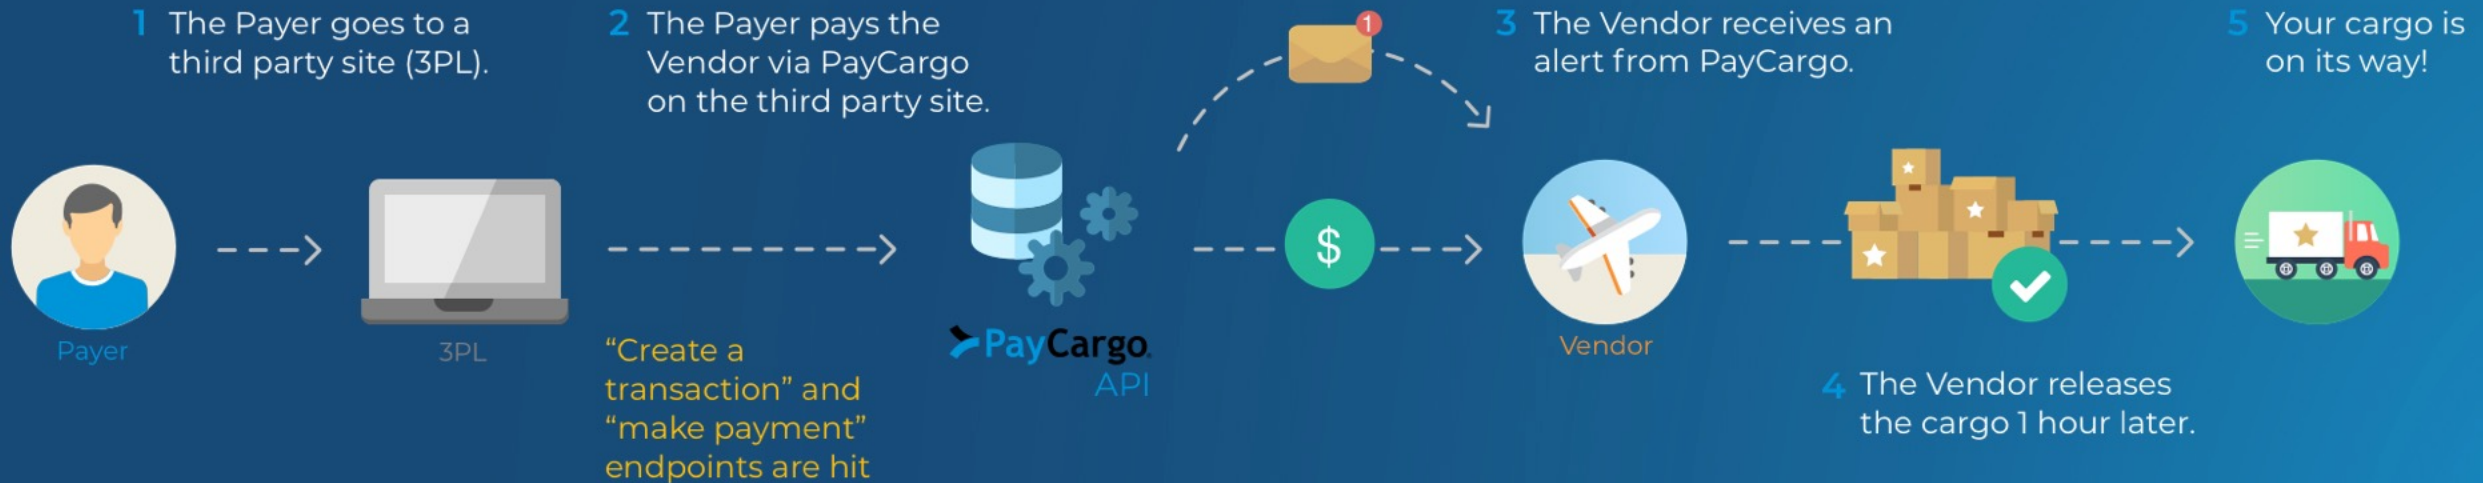

PayCargo's API automatically reconciles each transaction with your system!

No need to enter the details into your own system and no need to worry about duplicate transactions.
